Dear Mr. Gobalan,

TESTIMONIAL

We would like to take this opportunity to express our total satisfaction on your expertise in developing and implementing Failure Analysis activities for MyKad (Government Multipurpose Card) Project. Your team was very detailed and able to work through all of JPN technical requirements in a very organized manner and the project was a great success.

It has been a great pleasure to work with Anttela Sdn. Bhd. on this important National Project of Malaysia National Registration Department (NRD). Thanks again for a job well done and the continuous support. We are looking forward to work with you in the near future.

Please feel free to use this letter as a letter of recommendation and we will be very glad to provide information on Anttela's expertise and capabilities in Testing and Failure Analysis.

Thank you.

Yours sincerely,

(AZMI BIN YUSOFF)
Infrastructure and Operation Manager
Smart Card Division
National Registration Department
